citywest car sharing service

The Citywest Car Sharing Service is an on-line facility that allows employees at any of the 120 businesses located at Citywest to find a car-sharing partner anywhere within the campus, to share their daily commute to and from work. The service uses the website www.citywestcarshare.com. Employees living in the same residential areas can contact potential car-sharing partners from their own neighbourhood.

The website is simple and easy to use, and a minimum of personal details are required to register with the service. The password to gain access to the service is "digipark".

And with over 5,000 people now working at Citywest, you'll have a very good chance of making a match, cutting your weekly fuel bill, reducing traffic congestion and doing your bit for the environment.
